## EDUCATION

---

B.Sc.CSIT

Swastik College

Bhaktapur

Nov, 2019 - Present

## PROJECTS

---

### Facial Recognition using MTCNN pretrained module

As the team lead for our seventh-semester final project, my two friends and I collaborated effectively to address the project's objectives and challenges, resulting in successful outcomes.

### Facial Recognition using CNN Module

This is my project where we trained CNN module for facial recognition

<https://github.com/Sabingautam1/rattendece-using-CNN-module-and-InceptionResnet>

### Frontend of E-commerce Site

This is my single handled project where I used HTML and CSS for frontend designed.
